

We'll be starting at 7pm, make yourself comfortable ☺

*Get a nice cup of tea, or something stronger,
make sure that your microphone is muted
and that you've hidden the piles of dirty
washing behind you!*

As always, our Code of Conduct applies to all and can be seen at

<https://pydata.org/code-of-conduct>

Welcome!

It's 7pm! Which means we start!
Welcome to the second of the virtual
series of PyData Edinburgh events

Any problems during the session – please add a message into the Zoom chat window, we'll do you best to sort it out.

What's on tonight?

Alex McCall

“OOPS! I just spent the entire AWS budget”

What's on tonight?

Q&A after the talk

Please add any questions to the chat box in Zoom, and we'll ask the questions on your behalf.

But first a few introductions...

Who are we?

Sam

Head of Data, Effini

Martina

Data Science Lead, Mallzee

Nick

CEO, Stochastic Solutions

What's PyData?

- PyData is an educational program of NumFOCUS
- Forum to share ideas and learn from each other
- Promotes discussion of best practices, new approaches, and emerging technologies for
 - data management
 - processing
 - analytics
 - visualization
- PyData communities approach data science using many languages, including (but not limited to) Python, Julia, and R.

It's also a social event, a place to get help and a great place to extend your network...

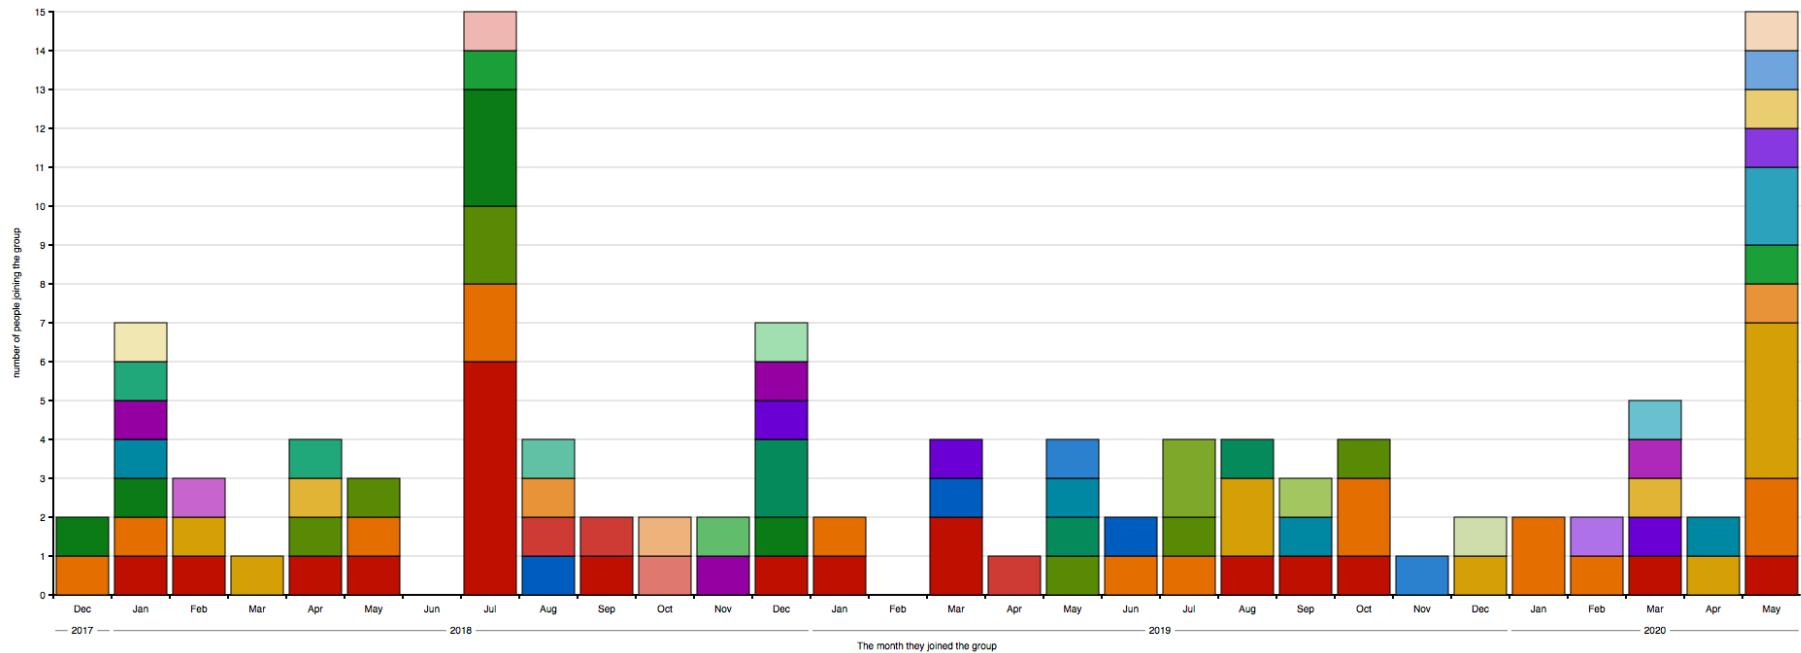

173 groups across **61** countries & with > 165k members, **13** recent ones

As for us...

Non-UK Members of PyData Edinburgh in time

Biggest peaks of memberships in conjunction with

1. EuroPython in Edinburgh - we had some speakers as well
2. A tweet these days (about this event) by the Python Software Foundation!

Future Events

Virtual until further notice...

Fortnightly – our next one is Tuesday 2nd of June,
another main talk one, it is going to be at **6pm** this time though!

After that, we are planning an event of “lightning talks only” - 5 of them. We need you speakers!

Get in touch if you'd like to talk!

Community Announcements

PyData groups upcoming Meetups

“Creating an easy to use and accurate Covid-19 tracking API”

20th May 2020

PyData Lancaster

“Uncertain about sampler methods?”

22nd May 2020
