

We'll be starting at 7pm, make yourself comfortable 😊

*Get a nice cup of tea, or something stronger,
make sure that your microphone is muted
and that you've hidden the piles of dirty
washing behind you!*

As always, our Code of Conduct applies to all and can be seen at
<https://pydata.org/code-of-conduct>

Welcome!

In case you're not sure, it's
Wednesday, it's the 6th May 2020
and if things have gone to plan, its
7pm!

You probably know where the
toilet is...

Any problems during the session – please add a message into the Zoom chat window, we'll do you best to sort it out.

What's on tonight?

Mine Çetinkaya-Rundel

"The results in Table 1 don't seem to correspond to those in Figure 2..."

What's on tonight?

Q&A after the talk

*Please add any questions to the
chat box in Zoom, and we'll ask the
questions on your behalf.*

But first a few introductions...

Who are we?

Sam

Head of Data, Effini

Martina

Data Science Lead, Mallzee

Nick

CEO, Stochastic Solutions

What's PyData?

- PyData is an educational program of NumFOCUS
- Forum to share ideas and learn from each other
- Promotes discussion of best practices, new approaches, and emerging technologies for
 - data management
 - processing
 - analytics
 - visualization
- PyData communities approach data science using many languages, including (but not limited to) Python, Julia, and R.
