A bar chart titled 'Growth' comparing the growth rate of various UK cities. The y-axis represents the growth percentage, ranging from 600 to 1,000. The x-axis lists the cities: London, Dublin, Bristol, Edinburgh, Cardiff, Manchester, and Cambridge. Each city has a corresponding colored bar. Handwritten annotations are present: 'they grew by 0.5%' points to the low-growth bars for London, Dublin, and Bristol; 'This one's really, really big...' points to the high-growth bar for Edinburgh; 'BUT we grew by 3.5%' is written over the chart, with 'we' pointing to the bar for Cambridge; and 'in Edinburgh!' is written next to the Edinburgh bar.

City	Growth
London	14
Dublin	14
Bristol	14
Edinburgh	869
Cardiff	810
Manchester	610
Cambridge	me

they grew by 0.5%
This one's
really,
really big...

BUT we
grew by
3.5%

869
in
Edinburgh!

PyData Südwest

Heidelberg, Germany

Community Announcements

Congratulations to PyData Südwest

for having their very first Meetup today

It is a truth universally acknowledged...

Alexander CS Hendorf @hendorf · Mar 25

I'm very happy to see our first #PyData Südwest event in my old hometown Heidelberg is sold out.

According to @PyDataEdinburgh it's the 2nd best #PyData castle!

Thanks for @GetsafeDE for hosting.

meetup.ps/e/GsLfD/h1mgY/a

...that **PyData Edinburgh** has the best castle in the PyData world!

It is a truth universally acknowledged...

And its fairly easy to see why! - Lets give them a call and say hello!

Thank you!

To all of you for making this **community** great

To our **sponsors** for making all this possible
